If you call a support person, give them this info:

Stop code: CRITICAL\_PROCESS\_DIED

# INTRODUCTION

How to identify a blue screen of death

## Step 1 — How To Identify a Blue Screen of Death

- ① There are many different things that can cause a BSOD
- For this identification guide, you will be needing the Stop Code. You can see it at the bottom right of the QR code.
- Scan the QR code on screen, or go directly to the [Microsoft BSOD troubleshooting page](#) and do some investigating.
- The [list of Bug Check codes](#) may prove especially useful

---

To reassemble your device, follow these instructions in reverse order.
