

Nokia 6200 Classic Battery Replacement

This guide shows how to remove the battery from the back of the phone.

Written By: Reid Polstra

INTRODUCTION

The back cover of the phone will have to be removed first. No tools are required.

Step 1 — Battery

- Turn the phone so it is face down (keypad side is down).

Step 2

- Press and hold the button located at the bottom of the phone.
- Slide the back of the phone downwards and away from the main body.
- Remove the backing and place it to the side.

Step 3

- Locate indentation from which battery can be removed.
- Place finger in indentation and lift battery up from phone's body.
- Remove battery from phone's body.

To replace the battery, simply put a new battery in the back of the phone, and replace the back cover.
