

Samsung NP350E5C-A02US Battery Replacement

How to replace the battery on your computer.

Written By: James Kingrey

INTRODUCTION

If your laptop does not charge, or goes dead faster than it used to, but runs fine when plugged in, then you have a bad battery. This guide will help you replace your current battery.

Step 1 — Battery

- Lay the laptop down so that the bottom is facing up.
- ⓘ There is no battery in the picture.

Step 2

- Slide the two plastic tabs to the opposing sides.
- ⓘ There is no battery in the picture.

Step 3

- While both are in the unlocked position, slide the battery out.
- ⓘ There is no battery in the picture.

To reassemble your device, follow these instructions in reverse order.
