

# Acer Aspire 5742 Series Hard Drive Replacement

How to replace a Acer Aspire 5742-6674 hard drive.

Written By: Michael Deckard

 **TOOLS:**

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)

 **PARTS:**

- [1 TB SSD / Upgrade Bundle](#) (1)

## Step 1 — Hard Drive

- Place laptop upside down and push battery lock slider to the left to unlock. Lift battery out.

## Step 2

- Remove two screws to take the cover off of the bottom of the laptop.

## Step 3

- With a plastic opening tool slide the drive over and remove it.

To reassemble your device, follow these instructions in reverse order.
