

# How to Force Restart an iPhone 11

Written By: yvaneck

## INTRODUCTION

Performing a force restart won't delete any data, but can be helpful if your iPhone 11 is frozen, won't turn on, or needs troubleshooting.

## Step 1 — How to Force Restart an iPhone 11

- Quickly press and release the Volume Up button (1).
- Quickly press and release the Volume Down button (2).
- You really have to press very briefly

## Step 2

- Finally, press and hold the side button (3) until the Apple logo appears, and then release.
- ❗ The screen will temporarily go dark as the iPhone shuts down and reboots. Keep holding the button until you see the logo.

You're done!
