## Step 1 — Enabling VoiceOver

- Start off by waking the device up and clicking the home button 3 times.

- You will know if you succeeded if you hear voiceover speaking and/or a rectangle around the time.
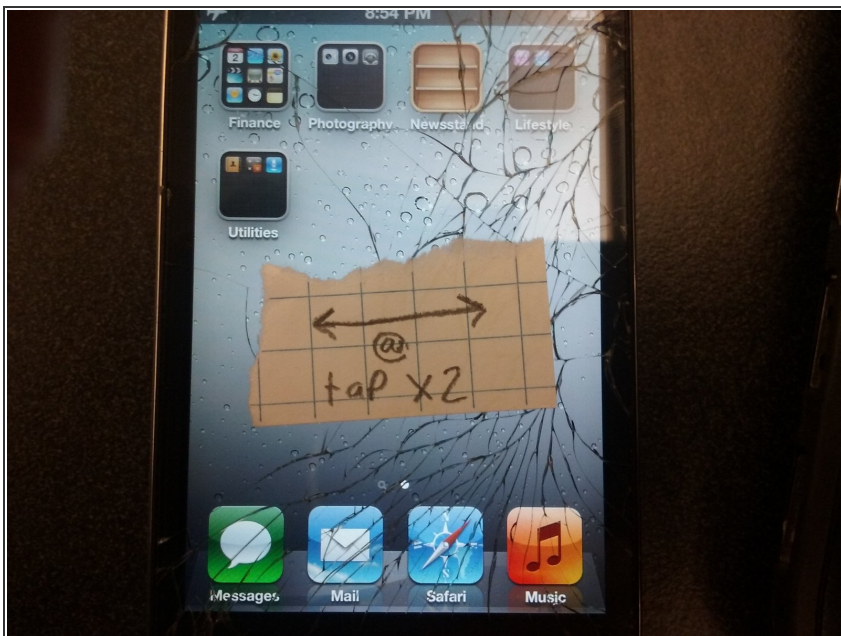

Step 2 — Unlocking the iPod

- After enabling Voiceover, tap "Slide to unlock" Two times.

- ⓘ Its best to do this where the screen still inputs touch.

Step 3 — Your done!

- You are now finished and are ready to use your iPod again!

- (i) If you want to disable Voiceover, press the home button three times again until it says "Voiceover Off" and the rectangle disappears.

Step 4 — Extra Tip

- If your device is really broken, You can try swiping left and right on the screen to move the box and double tap the area quickly can unlock the device.

- ⚠ Be careful not to cut yourself! If the cracks are too severe, its best to repair the screen to prevent any cuts to your fingers.

Enjoy using your iPod Touch again!
