INTRODUCTION

In this guide, you will learn how to uninstall programs from your HTC Fortress.

Step 1 — Uninstall Applications

- With the phone powered on and at the home screen, tap "Start".

Step 2

- Tap "Settings".

Step 3

- Tap "System".

Step 4

- Tap "Remove Programs".

Step 5
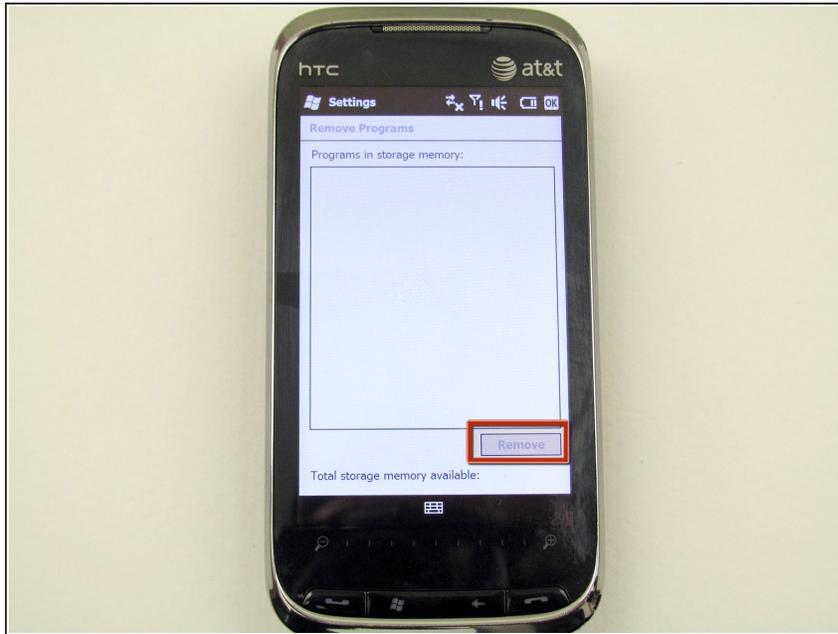

- Your installed applications will be listed here. Simply highlight the application you want to remove and tap "Remove".

The application will now be uninstalled from your phone.
