Step 4

- Gently lift off front and back casing.

Step 5

- Remove screws along side.

- Gently peel off side casing.
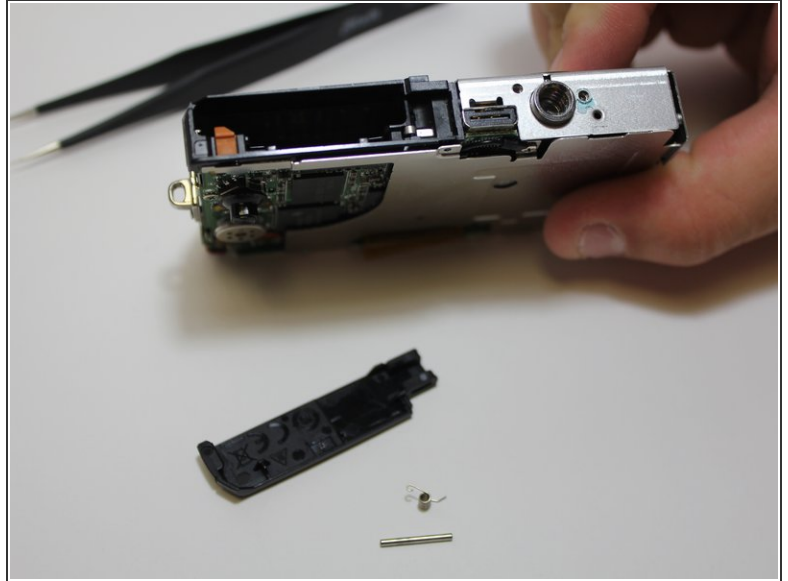

Step 6 — Battery Door

- Open the battery door and identify the retaining pin.

- Push retaining pin out with small tweezers.

Step 7

- Once pin is out halfway, close door to ensure no loose parts get lost.

- Continue to pull out the remaining length of the pin.

Step 8

- Gently lift off door cover.

To reassemble your device, follow these instructions in reverse order.
