Step 1 — Taking the Back Off

- Use a plastic opening tool to get the back cover off your phone.

- ⭐ The plastic opener will work on any side, but be careful and pry gently.

Step 2 — Removing the Battery

- Locate the battery in your phone.

- Find the divot below the battery.

- Use your thumb to lift the battery out of the phone.

Step 3 — Remove Screws

- Remove the 4 black screws with the Phillips screwdriver.
- Remove the 4 silver screws with the Torx screwdriver.

Step 4 — Remove Back Case

- Insert the plastic opening tool in between the two halves of the case. Pry around the phone to detach the back case.
