

iPad Mini 3 Left Antenna Cable Replacement

Prereq to peel the left antenna cable.

Written By: Sam Goldheart

INTRODUCTION

Prereq only.

TOOLS:

- [Spudger](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Left Antenna Cable

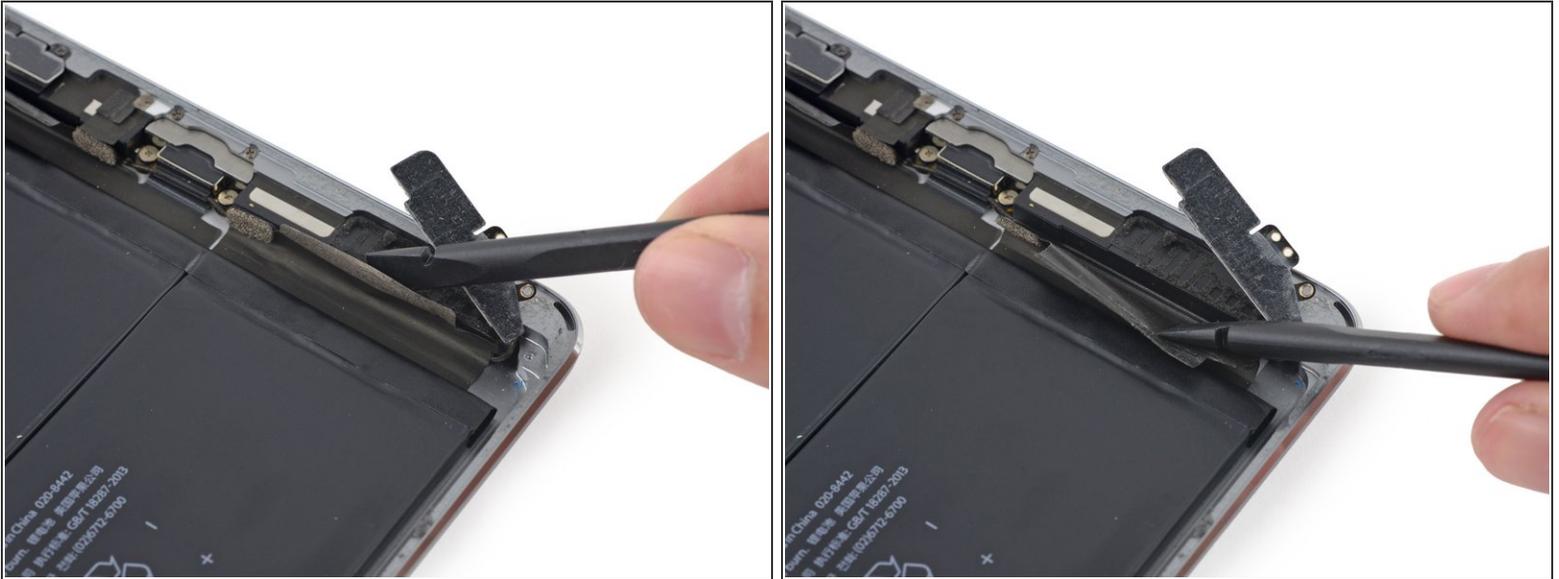

- Remove the following Phillips #00 screws from the left antenna:
 - One 2.6 mm screw
 - Two 1.5 mm screws

Step 2

- Use the flat end of a spudger to loosen the foam adhesive securing the Wi-Fi antenna to the left speaker.

Step 3

- Use the flat end of a spudger to fold the wide left-hand piece of tape away from the left speaker.

Step 4

- Use the tip of a spudger to pry the antenna cable tape up from the rear case of the iPad.
- Gently pull the antenna cable out of the way as you work along the piece of tape to free it and keep it from resealing.

Step 5

- Pull the antenna cable from the clip behind the Lightning connector.

To reassemble your device, follow these instructions in reverse order.
