

# HP Pavilion dv6000 Optical Drive Replacement

Replace the optical drive in your HP Pavilion dv6000.

Written By: Walter Galan

## INTRODUCTION

Replace the optical drive in your HP Pavilion dv6000.

---

### TOOLS:

- [Paper Clip](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Optical Drive

- ✦ Before proceeding, it is recommended to remove the battery to prevent any electrical damage to components.
- Remove the single 5.6 mm Phillips screw securing the optical drive to the lower case.

## Step 2

- Insert the tip of an unrolled paper clip into the small hole located on the side of the optical drive.
- i The tray will partially pop out of the laptop.
- Firmly pull the drive straight away from the laptop.
- ⚠ While pulling the drive out, be careful not to bend the sliding rails on both sides of the optical drive.
- At this point you can remove the entire optical drive, or you can continue to disassemble the optical drive assembly.

To reassemble your device, follow these instructions in reverse order.
