INTRODUCTION

This guide will show you how to reset the GLOD.

This document was generated on 2020-11-16 04:23:37 AM (MST).

Step 1 — Fixing Playstation 3 Green Light of Death (GLOD)

- While the PS3 is on (green LED on), put the PS3 into standby mode (red power LED) by pressing the power button for 5 seconds.

Step 2

- Now when the PS3 is in standby mode, hold the power button down until you hear it beep about 2 or 3 times, then release the power button.

Step 3

- This will reset the video settings to the lowest settings and when you start the PS3 with HDMI or PS3 AV cable connected, it will go through the setup process and you will now see a picture on the TV screen.
