INTRODUCTION

After a certain period of time or number of uses, a battery loses how long it can stay alive after a single charge. This guide shows how to replace the battery on the Lenovo Yoga 3 Pro.
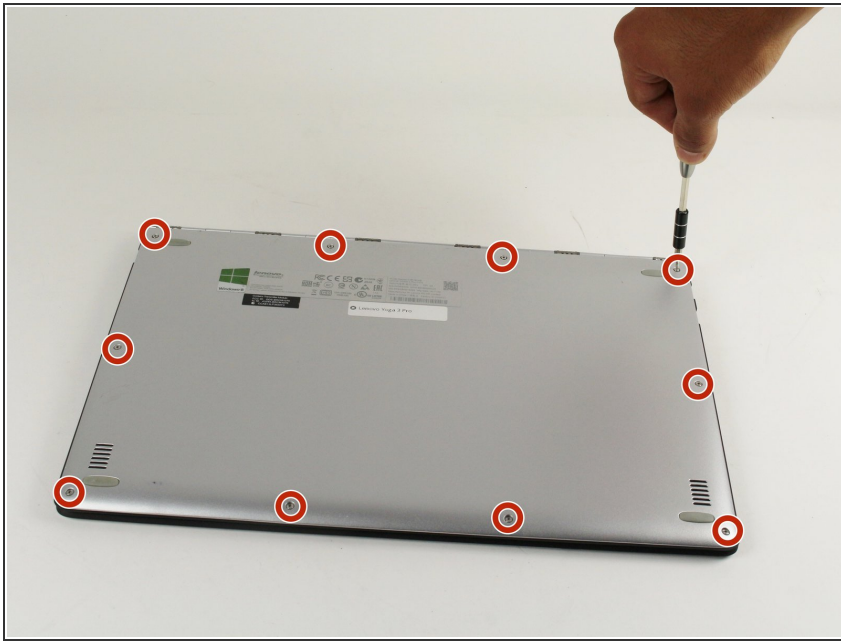

TOOLS:

- Phillips #00 Screwdriver (1)
- T5 Torx Screwdriver (1)
- iFixit Opening Tool (1)

PARTS:

- Lenovo Yoga Pro 3 Battery (1)
- Lenovo Yoga 3 Pro Lower Case (1)

Step 1 — Battery

⚠ Before opening your laptop, make sure it is powered off.

● Remove the ten 3.3 mm screws from the base cover using a T5 Torx screwdriver.

Step 2

● Slide the plastic opening tool between the base cover and the frame to pry open the computer.

● Slowly go around the entire perimeter of the computer until all edges are loose.

ⓘ Make sure the plastic opening tool doesn't go too far into the device.

Step 3

- Remove the panel and place it in a safe location.

Step 4
- Remove the six 3.5 mm screws surrounding the battery using a Phillips 00 screwdriver.

Step 5

● Using either tweezers or your fingers, disconnect the black battery cable by pinching either side of the connector and pulling towards the battery.

Step 6

● Carefully lift and remove the battery.
