INTRODUCTION

Use this guide to disassemble and replace your broken touchpad.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [64 Bit Driver Kit](#) (1)
-

Step 1 — Touchpad

- First step is to get your tools ready for use.
- -small screwdriver with a variety of attachments
- -plastic miniature prybar

Step 2

- Remove back cover by pushing the cover away from the charger port.
- Remove battery. This step is VERY important.
- Remove 2 small screws beneath battery tray.
- ** note, one of the 2 screws is underneath the void sticker, removing this sticker will void the warranty on your phone

To reassemble your device, follow these instructions in reverse order.
